Pflügers Archiv · European Journal of Physiology

Founded in 1868 as „Pflügers Archiv für die gesamte Physiologie des Menschen und der Tiere" by *E. F. W. Pflüger*. Edited by *M. Verworn, E. Abderhalden, A. Bethe, R. Höber, A. v. Muralt, H. Rein* et al.

Published: Vol. 1—29 (1876) Bonn, Cohen und Sohn; Vol. 30—92 (1901) Bonn, E. Strauß; Vol. 93—170 (1917) Bonn, M. Hager; since Vol. 171 (1918) Berlin, Springer.

Since 1920 Pflügers Archiv has included: „Archiv für Physiologie" (Archiv für Anatomie und Physiologie, Physiologische Abteilung). Founded and edited by Johannes Müller, E. du Bois-Reymond, W. v. Waldeyer-Hartz et al. 1877—1914. Leipzig, Veit und Co., since 1915, Berlin, Vereinigung Wissenschaftlicher Verleger, afterwards Walter de Gruyter.

Alle Rechte, einschließlich das der Übersetzung in fremde Sprachen und das der fotomechanischen Wiedergabe oder einer sonstigen Vervielfältigung, auch in Mikroform, vorbehalten. Jedoch wird gewerblichen Unternehmen für den innerbetrieblichen Gebrauch nach Maßgabe des zwischen dem Börsenverein des Deutschen Buchhandels e.V. und dem Bundesverband der Deutschen Industrie abgeschlossenen Rahmenabkommens die Anfertigung einer fotomechanischen Vervielfältigung gestattet. Wenn für diese Zeitschrift kein Pauschalabkommen mit dem Verlag vereinbart worden ist, ist eine Wertmarke im Betrage von DM 0,40 pro Seite zu verwenden. *Der Verlag läßt diese Beträge den Autorenverbänden zufließen.*

Die Wiedergabe von Gebrauchsnamen, Handelsnamen, Warenbezeichnungen usw. in dieser Zeitschrift berechtigt auch ohne besondere Kennzeichnung nicht zu der Annahme, daß solche Namen im Sinne der Warenzeichen- und Markenschutz-Gesetzgebung als frei zu betrachten wären und daher von jedermann benutzt werden dürften.

The exclusive copyright for all languages and countries, including the right for photomechanical and any other reproductions, also in microform, is transferred to the publisher.

The use of registered names, trademarks, etc. in this publication does not imply, even in the absence of a specific statement, that such names are exempt from the relevant protective laws and regulations and therefore free for general use.

Advice to Authors

The illustrations that will appear in your contribution will be shown to best advantage if you follow the brief set of instructions below. Please read carefully. Thank you.

The Publisher

Preparation of Line Drawings

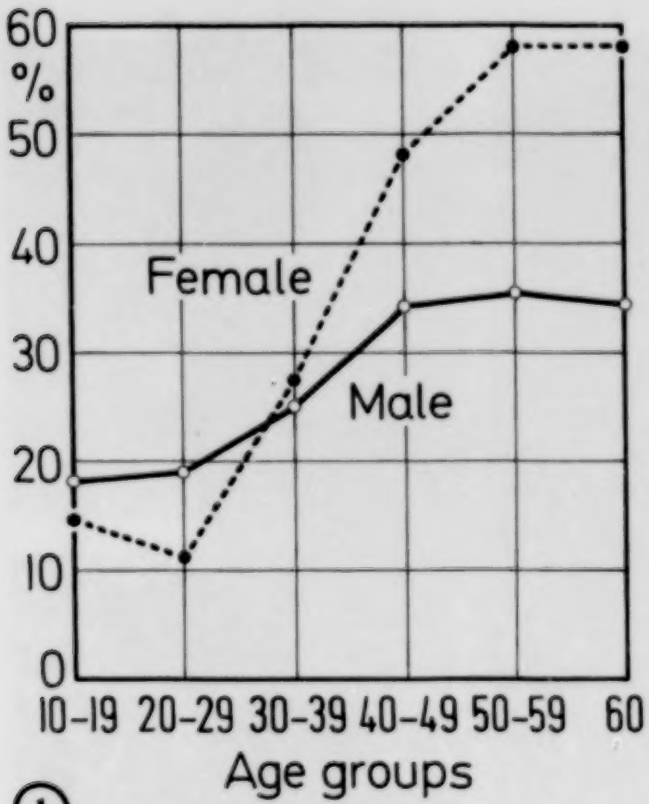
Illustration copy should be prepared to fit the format of the printed page (print area) so that 1 : 1 reproduction is possible. Where reduction is necessary, please state the desired scale.

Drawings are to be twice the final size and executed in indelible black ink.

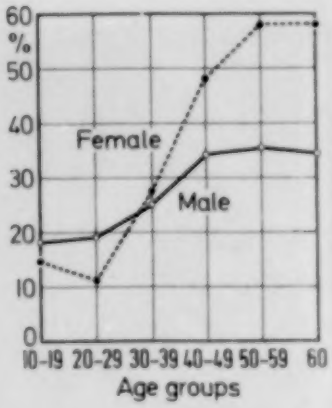
Important points to note: thickness of lines, size of inscriptions, size of measuring points, adequate spacing of shaded and dotted areas.

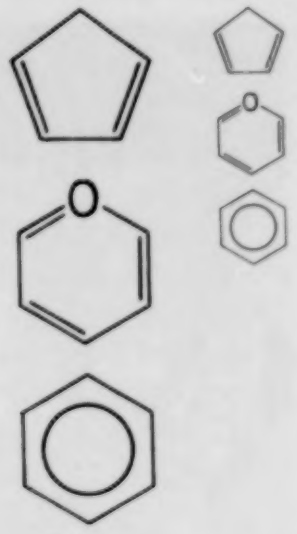
Words should be in upper and lower case characters, not CAPITALS.

The following are optimal sizes as they appear in the journal:
Capital letters and numbers: 2 mm
Lower-case letters: 1.6 mm.



①

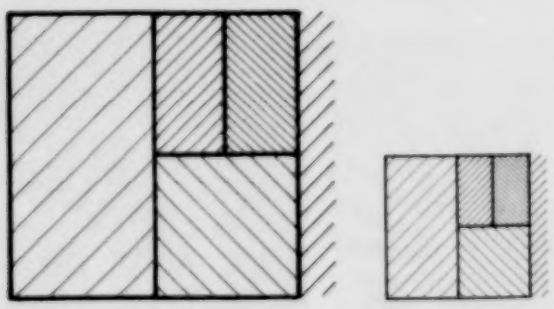




②

samples 1 to 5 show the original size and reduction × 50%

③



④

ABCDEFGHIJKLMNOPQRSTUVWXYZ
aabcdefghijklmnopqrstuvwxyz
1234567890 1·5° III IV VIII IX ∞ % ≈
[(=−+x÷ !?:" ",)] (A) (B) (a) (b)

⑤

1234567890 1·5° III IV VIII IX ∞ % ≈
[(=−+x÷ !?:" ",)] (A) (B) (a) (b)

Selection of Illustration Material for Halftones (photographs, micrographs, X-rays, instrument traces etc.).

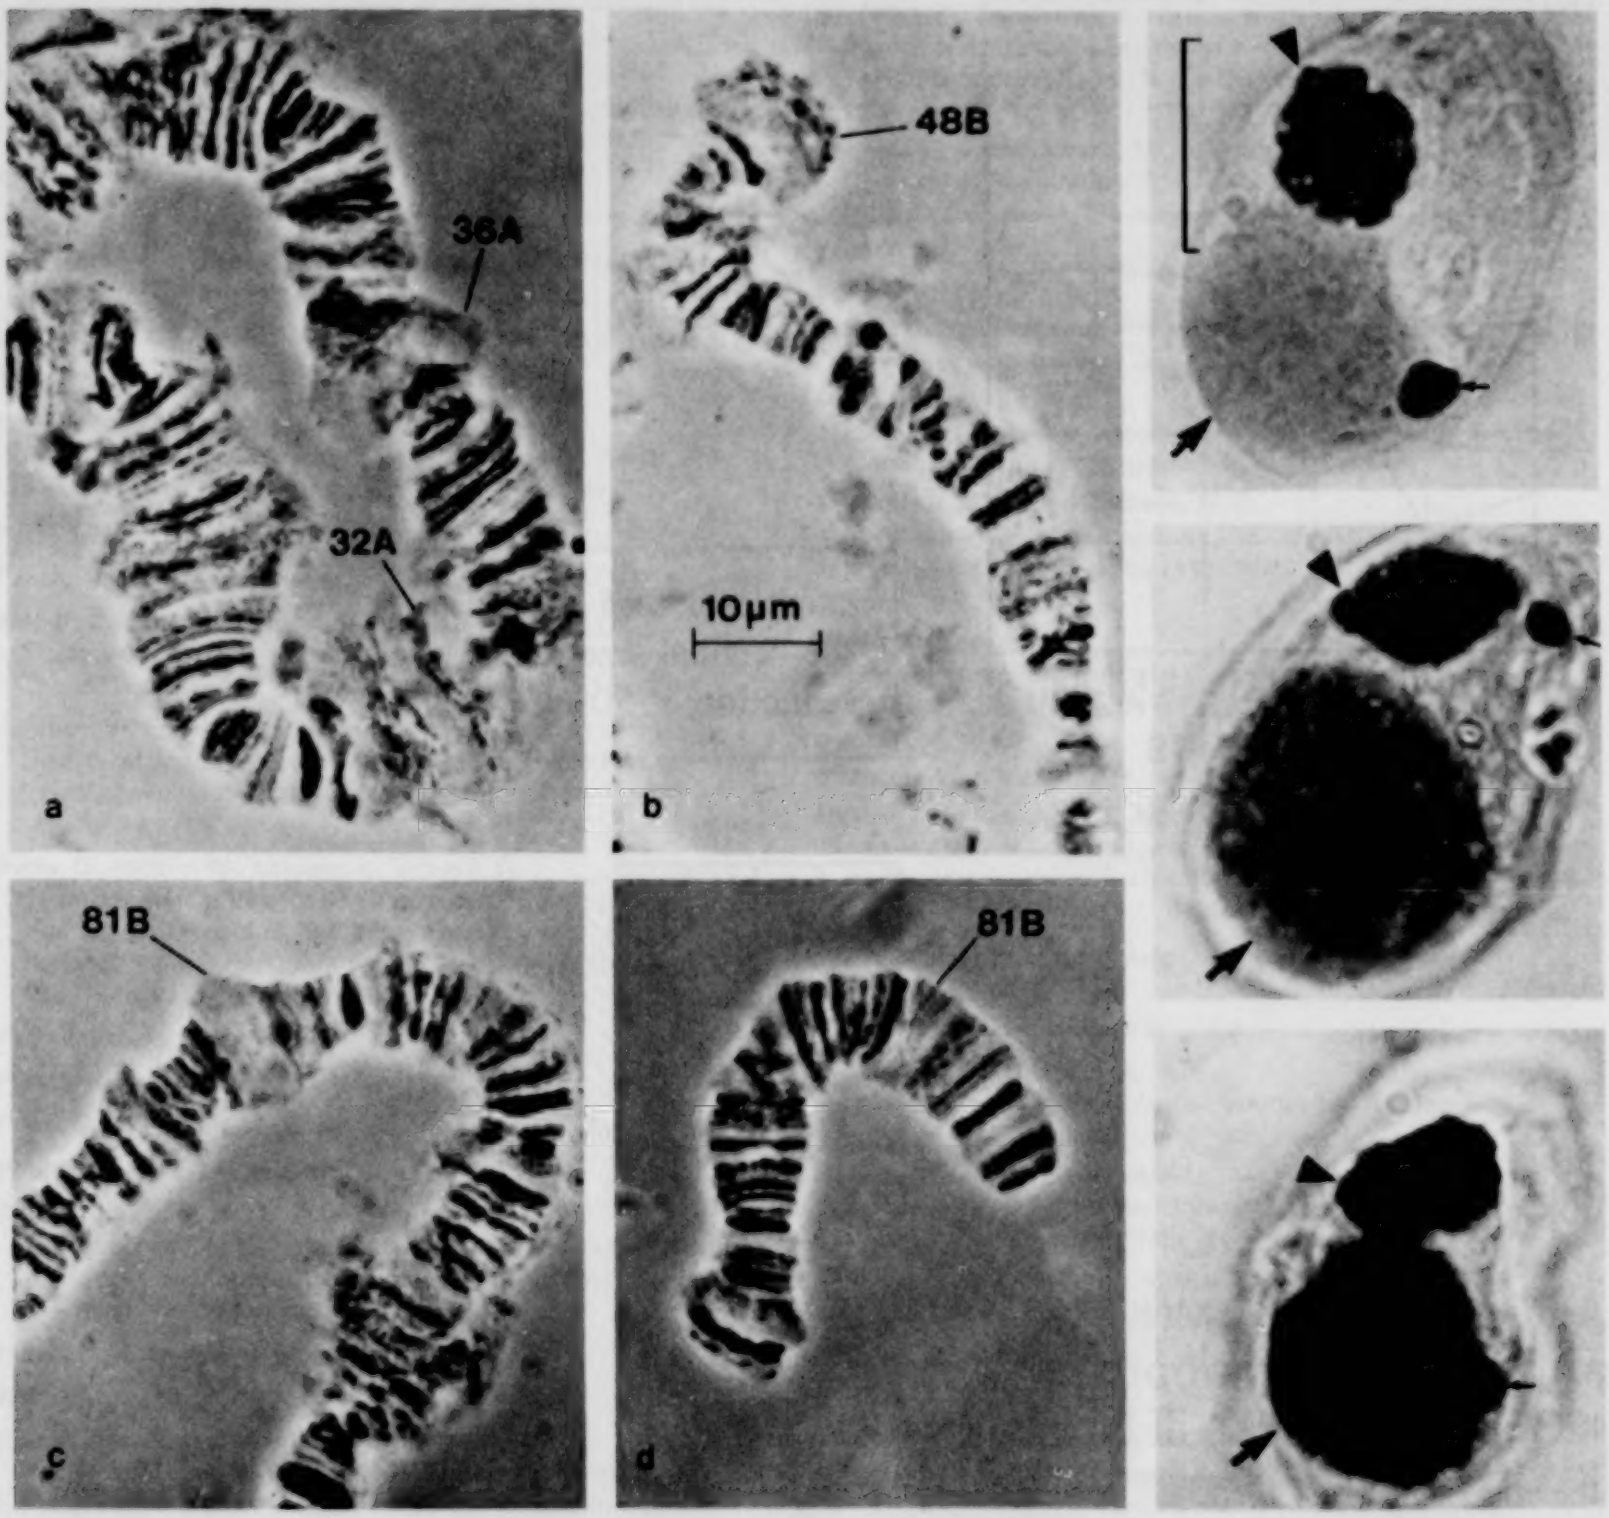
Photographs should be sharp, well-contrasted glossy prints of the original negative, trimmed at right angles. Halftone illustrations should be prepared to fit the format of the printed page (print area) so that 1 : 1 reproduction is possible. But if reduction is absolutely necessary, please state the desired scale.

Mark or crop marginal portions which are not required (at right angles, please).

Please see that illustrations that are to appear together are mounted accordingly as plates and that they correspond. Also they should not exceed the print area of the page, including room for the legend.

With X-rays, please indicate the significant parts on the back of the copy, or on an overlay.

Inscriptions, marks and scale lines should preferably be drawn neatly in black ink in an appropriate size on the face of the illustrations. Inscriptions should be about 3 mm high. Where Letraset is used, please handle it carefully and protect the photographs with an overlay.



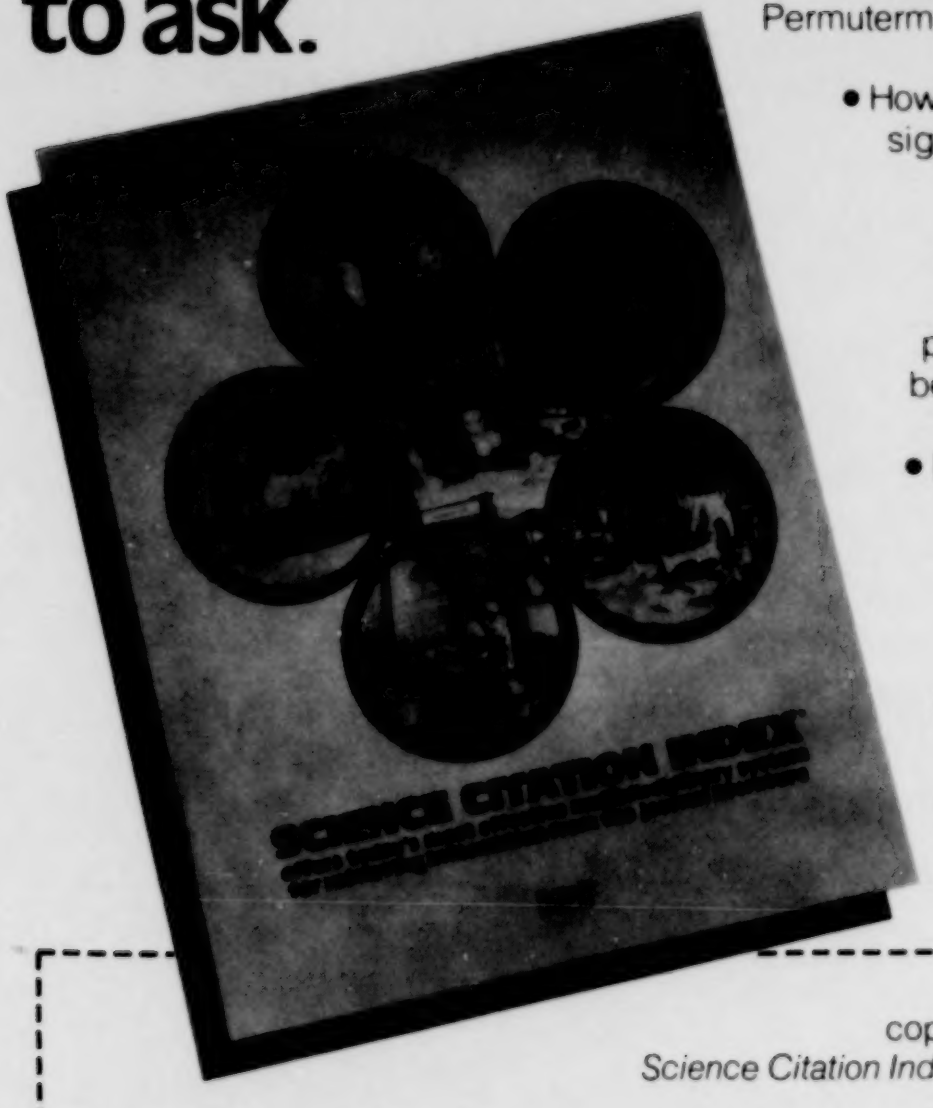
All you may ever need to know about the SCIENCE CITATION INDEX® but never found time to ask.

If you've heard about the *Science Citation Index*, wondered how it works or compares with traditional subject indexes, here's your chance to get the full story.

A new, comprehensive booklet discusses every facet of this unique indexing system. And it's available to you without cost or obligation.

Just off press, this booklet is full of facts, figures, theory and how-to-use-it information. For example, you'll find discussions of:

- How the *SCI*® employs citation and Permuterm® subject indexing to avoid use of ambiguous terminology.
- How the *SCI* covers over 90% of the significant scientific and technical journal literature.
- What is citation indexing?
- How the *SCI's* sophisticated, computer-based information processing reduces the time lag between original publication and indexing to a bare minimum.
- How to perform four basic types of literature searches—with sample indexing entries shown in detail.



So if you want to know all about the *SCI*, now's the time to ask. Send for your free booklet or ask for any reasonable number you may need for your organization.

Please send me _____ copies of your new booklet on the *Science Citation Index*® without cost or obligation.

A Symposium will be held under the auspices of the Physiological Society at King's College, Strand, London WC2R 2LS on Friday December 10th, 1976 on **"New Aspects of Epithelial Transport"** at which electrolyte and fluid absorption and secretion in mammalian amphibian and insect epithelia will be discussed.
All interested in attending the Meeting should contact the Secretary, Department of Physiology, King's College, London, Great Britain.
